Explanation of 'No' answers in section 1 Annual governance statement

10- We have not yet transitioned to a gov.uk website and email addresses. We are in the process of undertaking the task and have purchased the domain. Unfortunately, due to delays we have not been able put this in place yet.

7- While we have answered yes to this as we are aware that reserves are still very high. We are currently building up funds for works to be undertaken at the village hall. This will be a large project, and we are also applying for additional funding. At the moment we do not have a set time frame of when this project will take place. We will be completing the project as soon as possible and have plans underway.

An explanation of 'No' answers in the annual internal audit report –

O- The internal auditor has marked this as no and highlighted that we are still using a .co.uk website and email address.

We are in the process of updating to a .gov.uk website and email address. We have purchased the domain name and will start using the new details as soon as we are able to get it updated.
